

GTAG2 Integral Raised Floor Grommet

The GTAG2 Air-Guard® EXTREME is the best brush profiled air sealing grommet on the market. The GTAG2 features the Air-Guard® “better seal” overlapping brush system and a flexible secondary gasket seal. The unit is also supplied with a safety lid for use during fit out prior to cabling. All the materials used in the construction of the GTAG2 are V0 fire rated.

Sealing around cable openings offers the following benefits:

- Reduces bypass airflow and increases under-floor static pressure.
- Increases cooling efficiencies.
- Reduces running and infrastructural costs.
- Helps promote Hot Aisle / Cold Aisle best practice.
- Improves air cooling performance of grilles and/or perforated panels.
- Reduces carbon footprint.

The GTAG2 Air-Guard® features:

- Double Layered Engineered Sealing System - Brush upper & EPDM lower gasket.
- Unique Air-Guard overlapping better seal Nylon 6 Brush System.
- Integrated Safety Cover.
- Manufactured from high strength, flame retardant ABS and V0 rated nylon brush and EPDM.
- Easy to install.
- RoHS compliant.

The GTAG2 Air-Guard® dimensions:

- Fits a floor panel opening 230mm x 165mm.
- Overall dimension - 275mm x 210mm x 40mm.
- Maximum cable aperture - 180mm x 120mm.

Gromtec Europe has supplied cable grommets and flooring accessories for over 15 years. Our products are installed in projects around the world. All units are typically available from stock for immediate delivery.
