GTAG1

Environmental Control Made Simple

AIR-GUARD® awarded
"PRODUCT OF
THE YEAR"
in 2006 by
SearchDataCentre.com
in the category
Data Centre Cooling

The GTAG1 Air-Guard® cable seal provides an easy, economical and effective air seal for cable openings in the raised access floor.

Sealing around cable openings offers the following benefits:

- Reduced air loss and increased under-floor static pressure.
- Improved cooling efficiencies and extended cooling equipment life.
- Dramatically reduced plant running costs. Unsealed cable openings can account for up to 50% of conditioned air being wasted in the cooling process.
- Facilitates Cold / Hot aisle best practice.

The GTAG1 Air-Guard® features:

- Overlapping brush for a better cable seal. Test data available on request.
- Latched removable brush section allows for easy cable release.
- The GTAG1 Air-Guard® can be installed at the edge or within the floor panel.
- Manufactured from high strength flame retardant ABS and Vo rated quality nylon brush.
- RoHS compliant.
- Air-Guard foot safety cover available – ref GTAG1CVR.

GTAG1 Dimensions:

- Dimensions - Cut out 265mm x 115mm (centre cut) 135mm (perimeter cut).
- Overall size - 328mm x 162mm x 38mm.
- Free Cable Area - 230mm x 65mm.

AIR|GUARD®
the cool choice™
