GTA85 Air-Quiff

The Air Quiff circular brush seal grommet is designed to provide an effective air seal around cable bundles passing through the unit. Circular brushes form a natural sleeve, containing cables and sealing gaps.

The Air-Quiff is available as a push fit unit (GTA85P) or a clamp and assemble grommet (GTA85C). Made from flame retardant ABS the grommet housing is fitted with a nylon 6 brush ring and ABS top flange.

Dimensions:

Cut out: 210mm diameter
Overall: 240mm diameter
Dept: 50mm
